

WORKFORCE CONSULTANTS

REAL HR FOR REAL
BUSINESS SOLUTIONS

Your company understands that the quality, engagement and performance of your people is one of the most important differences between you and your competitors. Providing an all-encompassing HR program can be a difficult task for many businesses but at Workforce Consultants we partner with you to set you apart from the competition.

We help our clients go beyond common PEO Payroll solutions because we tackle the most important core and compliance employment challenges that you face. We also provide strategic HR planning, driving for best-in-class performance through talent acquisition, OD development and skills training.

HANDS-ON PARTNERSHIPS WITH OUR CLIENTS

The typical ready-made HR solutions are not good enough — lacking customization and understanding of your business and needs. We work with you on-site at your facility regularly. Partnering with your company leaders, supervisors and the frontline employees allow us to advise, teach, develop and perform based on the unique business challenges that are specific to your industry and company.

Let's get started today.

 760.459.8619

LET'S START FRESH

The Fresh Start Program is recommended for new clients to discover and fill any missing gaps in your existing HR programs before migrating to full-service programs, self-service programs or forging ahead on your own.

Fresh Start is a comprehensive and confidential HR audit and analysis, followed by our employee engagement survey.

Priorities Are Set

Completing the Fresh Start provides focused Project Development, Advisory and our Hands-on Performance in the critical fundamentals and strategic areas based on your specific needs, including HR core, legal compliance, talent acquisition and organization development.
